Mail Stop Patent Application  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Applicants draw the examiner's attention to co-pending commonly-assigned U.S. patent application 10/744,864, filed on December 23, 2003. FIG. 3 of the present patent application is drawn from that patent application. It is suggested that the examiner monitor prosecution of 10/744,864 for citation of items that might be considered relevant to the present case.

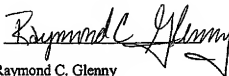

As the cited patent application does not constitute "prior art," its citation on a Form PTO-1449 is not appropriate. Accordingly, Applicants request that the examiner acknowledge in writing in the next Office Action, that he has received and officially considered this Notice.

Respectfully submitted,

Date: April 13, 2004
